

## Detail Panel

The Detail Panel will display on the list view page, and will show information and details about an item without having to open the item or leave the list view page.

The Detail Panel can be found in many areas of WO Sales that have a list view screen.

Click on an item in the list to highlight it, then access the Detail Panel for that item.

Access the panel by double-clicking the item or clicking the grey bar on the right side of the screen.

## VIDEO

Detail Panel behavior can be seen in the video below. Click the Play arrow in the lower left corner:
